

Covid-19 Daily Screening Checklist

If your child has any of the following symptoms, that indicates a possible illness that may decrease the student's ability to learn and also put them at risk for spreading illness to others.

Symptoms

- Temperature 100.4 degrees Fahrenheit or higher
- Sore throat
- New uncontrolled cough that causes difficulty breathing (for students with chronic allergic/asthmatic cough, a change in their cough from baseline)
- Diarrhea, vomiting, or abdominal pain
- New onset of severe headache

Potential Exposure

- Had close contact with a person who tested positive for COVID-19 in the last 14 days or is suspected of having Covid-19 but has not received a negative test
- Traveled to or living with someone who has traveled to an area where the local or state health department is reporting large numbers of COVID-19 cases
- Attended an indoor event with more than 25 people or an outdoor event with more than 100 without social distancing or masks
